PROJECTS

MySouko — Django/Python

A website I built to keep track of all of the Japanese media (TV shows, books, games etc.) that I have completed as part of my Japanese study.

Portfolio Website — HTML/CSS/Javascript

Personal website built from scratch to showcase the projects I have worked on throughout my degree.

Library Management Software — Java

Part of a Software Engineering group project in which we created an application to manage the adding, borrowing and returning of books at a library.
